- Efficient Asset (Vehicle, Escort) Utilization
- Employee Travel Time Reduction
- Employee Travel Time Reduction
- Regulatory Compliances

TRIP-EXECUTION : DELAY RISK MANAGEMENT

We understand the importance of On Time Arrival (OTA) for your business. Our cutting edge technology helps us to know exact status of the trip and throws up potential delay risks. This enables us to manage risks proactive and make sure that the OTA is high

Trip ID	Trip Date	Start Time	Route	Trip Status	Reported Start Time	Job	Status	Vehicle	Fleet Label	Trip Status	Trip Details	Trip Graph	Incidents
TRIP001	2023-10-10	17:00:00	Delhi to Gurgaon	Running	17:05:00	Job 123	On Time	Vehicle ABC	Green	Running	Details	Graph	Report Incident
TRIP002	2023-10-10	18:00:00	Delhi to Gurgaon	Running	18:10:00	Job 456	Delayed	Vehicle DEF	Yellow	Running	Details	Graph	Report Incident
TRIP003	2023-10-10	19:00:00	Delhi to Gurgaon	Running	19:00:00	Job 789	On Time	Vehicle GHI	Green	Running	Details	Graph	Report Incident
TRIP004	2023-10-10	20:00:00	Delhi to Gurgaon	Running	20:00:00	Job 101	On Time	Vehicle JKL	Green	Running	Details	Graph	Report Incident
TRIP005	2023-10-10	21:00:00	Delhi to Gurgaon	Running	21:00:00	Job 202	On Time	Vehicle MNO	Green	Running	Details	Graph	Report Incident

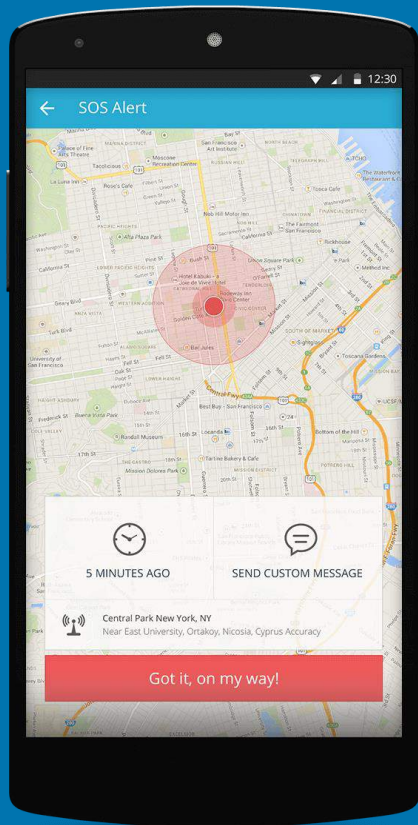

Shows exact status of trips highlighting potential delay risks

Higher OTA: Proactive Delay Management

Trip wise delay root cause analysis ability – helps setups effective corrective plans

“Management by exception” – less hassles, lower costs

OUR ADOPTION

Simple On Touch Rostering / No Show

Know Exact Location / ETA

Automated Cab Arrival Status SMS and Notifications

Convenient Routes – Minimize Travel Time

Automated Real Time Safety Risk Detection

Automated Safe Drop Confirmation

SOS – Integration With Control Room

PROCESS

Arrival Time & Cab Details

On Trip Sheet Generation associate get SMS with ETA, driver and cab details

On arrival driver presses the "INFROM" button. SMS goes to the associate to inform cab arrival.

On Check in next associate to be picked up get intimation of pickup

SMS Query : Associate can send an SMS Query to know current location of cab

No Show Management

No show press by driver results in immediate intimation to Project Manager

No Show intimation can be executed by employee using SMS

Real time re-Routing

Real time changes resulting into triggers like Women Only situation generates alerts at control room. Allows quick re-routing of cabs

Delay Root Cause Analysis

It is very easy to pin down the root cause of delays – Cab was late, Associate was late, traffic condition etc.

ETS
